

Peer Grading Sheet

Your Name:

Author's Name:

Instructions: Now that we've reviewed the grading criteria, read through your peer's paper keeping the criteria in mind. When you're done, determine what grade Barclay would most likely give the paper.

I feel that Barclay would give this paper a/an _____.

Now, explain why you think Barclay would give it that grade: what specific elements of the criteria did you see in the paper? What paragraphs or pages provide good examples of these elements? In other words, if that's the grade what about the paper makes it that grade?

Specifically, I thought he would notice the following elements of the criteria for that grade:
